

Texas Instruments

CASE STUDY

IN SUMMARY

A global electronics company operating in 35 countries with around 30,000 staff worldwide. It designs, manufactures and sells semiconductors and products such as calculators and computer processors.

Making payroll & HR easy

Texas Instruments has been using Moorepay's cloud-based payroll bureau service since 1998. The service removes the administration involved in payroll, providing users with a ready-made solution that lets them retain full control over the inputting and management of information, without the need for developing their own costly software solution.

MOOREPAY CASE STUDY:

TEXAS INSTRUMENTS

“WE CHOSE MOOREPAY BECAUSE OF ITS OUTSTANDING REPUTATION FOR CUSTOMER SERVICE, AS WELL AS ITS PROFESSIONAL, EASY-TO-USE PRODUCTS.”

Moorepay Bureau Payroll is a cloud-based system, negating the need for expensive hardware and endless reinstallations of updated software – it’s all done automatically.

Because all the information is stored on Moorepay’s secure UK-based web servers, users don’t need to worry about data security breaches.

Janet Hughes is Texas Instruments’ payroll administrator. “Our Moorepay payroll solution is fast, efficient and it gets better every time the system is updated,” she says.

BENEFITS

- Expert support and web training
- Full control over your payroll
- Daily back ups, full disaster recovery and access control
- Risks with in-house payroll reduced

“It’s brilliant for keeping us up to date with legislation changes and handling submissions to HMRC efficiently and accurately.”

Having worked in payroll for more than 30 years, Janet is an expert in ensuring all employees are paid correctly and on time.

Problem-free payroll

With 350 employees at Texas Instruments’ Greenock site, some paid weekly and some monthly, a lot of people are relying on Janet and her team.

“That’s why the Moorepay payroll bureau is so valuable,” she says. “All I have to do is input the data and transmit it over the internet. The whole process is extremely smooth, straightforward and easy to manage.”

As well as managing the BACS processing and issuing payslips (paper or online), the Moorepay payroll bureau can take care of P45, P60 and P11D printing.

The system allows for a wide range of management reports to be produced, and full system maintenance, support and back-up are included as standard.

The personal touch

As well as removing the headache of manually operating a weekly and monthly payment system, Moorepay’s personal approach is a major benefit for Janet.

All Moorepay’s clients have their own personal contacts to turn to, rather than being faced with call centre staff.

“We chose Moorepay because of their outstanding reputation for customer service, as well as their professional, easy-to-use products,” says Janet.

“Almost 20 years on, we continue to have a very good relationship with our key contacts there –they’re always very helpful and give us great support.”

“The service has always been good, but it just keeps getting better,” concludes Janet. “I’ve been happy with Moorepay from the word go and I wouldn’t hesitate to recommend them.”
